

Scalability&FuturePlan

Date	2October2026
TeamID	SWTID-2026-2606
ProjectName	PocketsmartAI:YourSmartBudgetARecommendationAssistant
MaximumMarks	1Mark

Scalability&FuturePlan:

Thisdocumentoutlineshowthecurrentproject solutioncanbescaledtohandlelargeruserbases,increaseddataloads,orextendedfeaturesinthefuture. Italsocapturestheteam's roadmapfor enhancingandevolvingtheprojectbeyonditscurrentstate.

CurrentSystemLimitations:

S.No	Limitation	Impact	PrioritytoAddress (Htgh/Medium/Low)
1	Currentrecommendationdalamaydependoncotlligured AI/service integrations.	Liveproduct'sserviceinformationmaynot alwaysbeavailable.	high
2	Localapplication/databasesetupissuitableforaprototype-scaleddeployment.	Largeruserloadswouldrequirestronger sharedinfrastruicture.	Medium
3	Recommendationqualitydependsoninputquality andAIresponsequality.	Incompletecontextcanreducere commendationrelevance.	Medium

ScalabilityPlan:

S.No	ScalabilityAspect	CurrentState	ProposedUpgrade/Solution
1	UstrLoad	Protolype/localdeployment	Usescalableapplicationhosting,loadbalancingandhorizontal scalingforlargeruserbases.
2	DataStorage	Local database forapplicationda6history	Movelomanagedrelationalstorageandaddbackup,indexing andretention policies.
3	Performance	FastAPI + AIrequest/responseworkflo w	Addcaching,asyncl\ronousprocessing,request lim\ls andperformance monitoring.
4	Security	Session-based authenticationandenviron ment-basedsecrets	Strengthenauthentication,secreimanagement,accessconsols, HTTPSandsecuritymoilitorifg.

FutureRoadmap:

Phase	Plannedfeature/Enhancement	TargetTimeline	ExpectedImpact
Phase1	Strengthenlive product/serviceintegrationsandrecommend ationevaJualJon.	Nextdevelopmentcycle	Morecurrentandmeasurablereco n\mendations.
Phase2	Richer personalizationand user preference history.	Mediumterm	Morerelevant recommendationsfor returning users.
Phase3	Additionalplailningandrecommendationcateg ories.	Mediumtolongterm	Broaderusefulnessbeyondthecurrentthree scenarios.

Phase4	Broaderdeploymentoptionsandexpanded multimodalexperiences.	Longterm	Improvedscalability,accessibilityandAI-as sisted planning.
